

The American Board of Thoracic Surgery Case Summary

Instructions: Provide a summary of your cases, but do not exceed 100 cases and/or one year.

Hospital(s):

Diplomate's Name: _____
Inclusive Dates: _____

A. Major General Thoracic Procedures

Type of Operation	No. Major Cases	Type of Operation	No. Major Cases
1. Chest Wall		5. Diaphragm	
a. Resection of Tumor	_____	a. Repair of Congenital Hernia	_____
b. Debridement/Rewiring Sternum	_____	b. Repair of Paraesophageal Hernia	_____
c. Repair of Pectus Excavatum/Carinatum	_____	c. Repair of Traumatic Hernia	_____
d. Thoracic Outlet	_____	d. Plication	_____
e. Repair of Chest Wall Hernia	_____	e. Resection	_____
f. Repair of Sternal Fractures	_____	f. Others (Specify)	_____
g. Thoracoplasty	_____	Total Diaphragm	_____
h. Others (Specify)	_____		
Total Chest Wall	_____	6. Esophagus	
2. Lung and Pleura		a. Resection or Bypass for Tumor or Stricture	_____
a. Pneumonectomy	_____	b. Correction of Reflux or Stricture	_____
b. Lobectomy	_____	c. Excision of Diverticulum	_____
c. Segmental Resection	_____	d. Correction of Esophageal Atresia (TEF)	_____
d. Pulmonary Resection with En Bloc Chest Wall	_____	e. Myotomy	_____
e. Wedge Resection or Resection of Bleb	_____	f. Closure of Fistula	_____
f. Thoracotomy for Exploration and Biopsy	_____	g. Ligation of Varices	_____
g. Decortication	_____	h. Revision of Bypass	_____
h. Pleurectomy/Pleurodesis	_____	i. Repair/Drainage of Perforation or Rupture	_____
i. Closure of Broncho - Pleural Fistula	_____	j. Others (Specify)	_____
j. Drainage of Lung Abscess/Empyema	_____	Total Esophagus	_____
k. Repair of Lung Laceration or Injury	_____	7. Thoracotomy for:	
l. Resection of Pulmonary Cyst or Sequestration	_____	a. Anterior Spinal Fusion	_____
m. Resection of Pleural Tumor	_____	b. Transthoracic Vagotomy	_____
n. Others (Specify)	_____	c. Sympathectomy	_____
Total Lung and Pleura	_____	d. Re-Exploration for Bleeding	_____
3. Tracheobronchial		e. Other (Specify)	_____
a. Resection of Stricture	_____	Total Thoracotomy	_____
b. Resection of Tumor	_____	8. Video-Assisted Thoracoscopic Procedures (VATS)	
c. Repair of Rupture or Laceration	_____	a. Diagnostic Thoracoscopy/Biopsy/Pleurodesis	_____
d. Sleeve Lobectomy or Pneumonectomy	_____	b. Wedge Resection for Nodule	_____
e. Mediastinal Tracheostomy	_____	c. Lung Biopsy	_____
f. Others (Specify)	_____	d. Lobectomy or Pneumonectomy	_____
Total Tracheobronchial	_____	e. Resection of Cyst	_____
4. Mediastinum		f. Pericardial Window	_____
a. Excision of Tumor or Cyst	_____	g. Drainage of Empyema/Hemothorax	_____
b. Thymectomy	_____	h. Mediastinal Procedure	_____
c. Mediastinoscopy/Mediastinotomy	_____	i. Esophageal Procedure	_____
d. Ligation of Thoracic Duct	_____	j. Others (Specify)	_____
e. Others (Specify)	_____	Total Video-Assisted Thoracoscopic Procedures (VATS)	_____
Total Mediastinum	_____	TOTAL MAJOR GENERAL THORACIC PROCEDURES (A)	

B. Major Cardiovascular Procedures

Type of Operation	No. Major Cases	Type of Operation	No. Major Cases
1. Closed Operations for Congenital Heart Disease		7. Other Cardiac Procedures	
a. Patent Ductus Arteriosus	_____	a. Arrhythmia Surgery	_____
b. Coarctation of Aorta	_____	b. Insertion ICD	_____
c. Shunting Procedure	_____	c. Insertion/Removal Cardiac Assist Device	_____
d. Vascular Ring or Arch Anomalies	_____	d. Removal of Intra-Cardiac Foreign Body	_____
e. Valvotomy	_____	e. Repair Cardiac Trauma	_____
f. Pulmonary Artery Banding	_____	f. Re-Exploration for Bleeding	_____
g. Atrial Septectomy	_____	g. Others (Specify)	_____
h. Others (Specify)	_____		
Total Closed Operations for Congenital Heart Disease	_____	Total Other Cardiac Procedures	_____
2. Open Operations for Congenital Heart Disease		8. Thoracic Vascular	
a. Tetralogy of Fallot	_____	a. Traumatic Injury	_____
b. Transposition	_____	b. Repair of Aneurysm	_____
c. Truncus Arteriosus	_____	c. Repair of Aortic Dissection	_____
d. A-V Septal Defect	_____	d. Pulmonary Embolectomy/Endarterectomy	_____
e. Anomalous Pulmonary Venous Drainage	_____	e. Others (Specify)	_____
f. Ventricular Septal Defect	_____	Total Thoracic Vascular	_____
g. Atrial Septal Defect	_____		
h. Interrupted Arch/Hypoplastic Left Heart	_____	9. Transplantation	
i. Fontan Procedure	_____	a. Single Lung	_____
j. Others (Specify)	_____	b. Double Lung	_____
Total Open Operations for Congenital Heart Disease	_____	c. Heart	_____
		d. Heart-Lung	_____
3. Valvular Heart Disease		e. Procurement of Lung	_____
a. Mitral Commissurotomy	_____	f. Procurement of Heart	_____
b. Mitral/Aortic Valve Repair	_____	g. Procurement of Heart-Lung	_____
c. Valve Replacement	_____	h. Others (Specify)	_____
d. Combined Valve/Coronary	_____	Total Transplantation	_____
e. Aortic Root Replacement	_____		
f. Others (Specify)	_____	10. Major Peripheral Vascular Surgery	
Total Valvular Heart Disease	_____	a. Repair of Excision of Aneurysm	_____
		b. Vascular Graft or Prosthesis	_____
4. Resection of Cardiac Tumor		c. Endovascular Aortic Procedures	_____
Total Resection of Cardiac Tumor	_____	d. Endarterectomy	_____
		e. Embolectomy	_____
5. Operations for Coronary Atherosclerosis		f. Others (Specify)	_____
a. Primary	_____	Total Major Peripheral Vascular Surgery	_____
b. Reoperation	_____		
c. Ventricular Aneurysm	_____	TTL MAJOR CARDIOVASCULAR PROCEDURES (B)	_____
d. Acquired VSD	_____		
e. Combined Coronary/Carotid	_____	C. Major Non-Cardiothoracic Procedures	_____
f. Others (Specify)	_____		
Total Operations for Coronary Atherosclerosis	_____	TOTAL MAJOR CASES	
		Total Major General Thoracic Procedures (A)	_____
6. Pericardium		Total Major Cardiovascular Procedures (B)	_____
a. Pericardial Window	_____	Total Major Non-Cardiothoracic Procedures (C)	_____
b. Pericardiectomy	_____		
c. Others (Specify)	_____	Total Major Cases (A, B, & C)	_____
Total Pericardium	_____		

(The total should not exceed 100 cases)
